***"I decided to start Lifestyle Hearing Solutions after many years of working in both the NHS and for trusted, national retail hearing care providers. My belief is that the customer should always come first. My aim is to focus on each client as an individual, consider their unique lifestyle and the impact their hearing loss is having on, not only them, but their family and friends. Everyday lives can be improved again and again through careful, well-managed hearing care. As an audiologist, I understand that as people, we all connect with one another and that is integral to every moment we share. Being able to help my clients enjoy better hearing and share that experience with others is simply a pleasure"***

***Jo and the team offer the latest technology and a relaxed atmosphere to chat about your hearing journey over tea or coffee. Hear in Hagley is family owned and independent, offering bespoke solutions in a brand-new clinic with quality surroundings. The latest technology is available to all, with personalised, straight-forward yet sophisticated hearing solutions. "***
